GMIS MAP TEST REPORT AUTUMN 2020-2021

What are MAP tests?

MAP tests are trusted and innovative assessments for measuring achievement and growth in Kindergarten to Grade 12 students for mathematics, reading, language usage, and science. These international testing tools provide teachers with accurate, and actionable evidence to help target instruction for each student or groups of students regardless of how far above or below they are from their grade level. It also connects to the largest set of instructional content providers, giving educators flexibility in curriculum choices.
